Petition to the NSW Government in support of……

CONSERVATION OF JERVIS BAY

To the Honourable the Speaker and members of the Legislative Assembly in Parliament assembled. The petition of certain residents of New South Wales draws to the attention of the Assembly :

That Jervis Bay is a place of exceptional beauty, relatively undisturbed on an increasingly populated coastline, with outstanding natural and cultural heritage values. Your petitioners therefore humbly pray that the Legislative Assembly in Parliament assembled call for a moratorium on further land rezonings within the catchment of Jervis Bay, and a halt to large-scale developments such as that proposed by the Stocklands corporation for Vincentia.
